ALAN PRESSLEY WILSON

The nervous "break-down"

This condition is usually caused by overwork or mental strain and neglect.

When one overworks, the nerves are over-worked. Then you "live on your nerves."

You can "live on your nerves" just so long—then the nerves protest in some form—"break down," "worn out," nervous prostration—all meaning just one thing.

Your nerves need attention. You must feed some new power to your nerves.

That is just what Paine's Celery Compound does. It feeds new power to the nerves and builds them back to healthy strength.

That is just why for the past 17 years Paine's Celery Compound has been the most universally used tonic in the world.

That is just exactly why brain workers keep themselves keen, healthy and vigorous by using Paine's Celery Compound.

Alan Pressley Wilson, a journalist of Baltimore, tells his experience in an interesting way—his experience is that of thousands upon thousands every year.

Wells & Richardson Co., Burlington, Vt. Gentlemen:—"Paine's Celery Compound has been the means of placing me on my feet after a continuous struggle against nervous prostration. When my wife died a short time ago I threw myself into my work with such energy as to cause a nervous breakdown, and my friends became very solicitous of my health. I tried various remedies and diets but seemed to grow worse. At times I became so despondent that I did not care to live if living meant such nervous debility. One day when I was exhausted by the nervous strain of my work I chanced to see in The Baltimore American the testimony of one who had been troubled with nerve depletion, but who, through the use of the famous Compound, was made well. I resolved to try it and I am delighted with the results. I can now do the work on my paper that I never thought possible. Journalistic work requires strong nerves and I have no fear that mine will fail me now."—Alan Pressley Wilson, 1635 Edmonson Ave.

Thousands of grateful patients tell of the unfailing effect of Paine's Celery Compound as a nerve vitalizer and tonic. Physicians, the world over, use and prescribe it and testify to wonderful cures.

One bottle will prove its wonderful properties—it gives almost instant effect. Let Paine's Celery Compound strengthen and restore your nerves, nourish your system, purify your blood and help you back to vigorous, buoyant health.

Remember this—Paine's Celery Compound is the prescription of one of the most famous physicians America has ever known—Prof. E. E. Phelps, of Dartmouth University. All reputable druggists recommend and sell Paine's Celery Compound.

BURLINGTON, VERMONT.

CARTER'S LETTER TO ROOSEVELT

THE LEADING RECOMMENDATIONS IN THE ANNUAL REPORT OF THE GOVERNOR OF HAWAII

President Roosevelt's recommendation to Congress that Hawaii have 75 per cent of her federal revenues for public purposes here is based on a letter to him from Governor Carter, proposing such a scheme. The proposition was suggested to Carter by U. S. District Attorney Breckons and the governor made it the subject of a long letter, of which the following is a part:

"I have heard it expressed that Hawaii was annexed too soon; that the Supreme Court decision had not developed the idea of a 'possession,' and that Hawaii should not have been a Territory.

"Be that as it may, the fact remains that taking the customs revenues alone since annexation our 155,000 consumers have paid into the Federal Treasury \$6,059,171.51, half as much again as the total debt assumed at the time of annexation. Over one million dollars is being taken out of this country every year and placed in Uncle Sam's coffers. Is there any area of 6640 square miles on the mainland (this is about the size of Connecticut and Rhode Island together) which with only 155,000 people could stand up for five years under such a strain? Were it not for our exceptionally productive soil, the high price of sugar and low price of labor, it would have swamped us ere this.

"Since annexation we have been derided additional cheap labor, the price of which has constantly increased; and

I take it you deem it wise to maintain such a policy. Then how are we to meet this strain? Some thing should be done to relieve it.

"Sugar from the Philippines will in all probability be admitted to mainland markets free. The price of labor in the Philippines will be less than in Hawaii, her margin of profit on sugar higher than ours. Her production will increase rapidly and supply the west, and poor little Hawaii will be left bearing its burden of taxes and contributions far in excess of the Philippines and yet obliged to compete with them.

"Senator Foraker once suggested that he believed it better for Hawaii to give up its present status as a Territory and accept that of a 'possession,' working out her own destiny, freed from the necessity of submitting to the application of every law passed by Congress in response to the needs or conditions as they exist on the mainland. Free to use all of the revenues collected from her people in their own development. Free to make laws for her own conditions, relieving Congress from the necessity of excepting her from the application of those laws passed in response to the needs of the United States proper. In such a position all legislation by Congress concerning Hawaii would be special and considered only in the light of her best interests, such as is in a general way the position of Porto Rico. He made this remark: 'We are taking a million dollars each year out of Hawaii which we do not need, and we should find some way of stopping it.'

"In my message to the Legislature in February of this year, I made a comparison of the taxes, with the best figures obtainable, on the people in Porto Rico and Hawaii, the result of which was astounding.

"Every person in Hawaii is taxed for local purposes \$15.20, and an indirect tax for the support of the Federal Government of \$7.90—a total of \$23.10 a year.

"In Porto Rico the tax collected amounted to \$2.29 per capita, and the whole of that (as they contribute nothing

TURNED DOWN CLAIMS OF TREASURER

(Continued from Page 2.)

Watalee and Kaimuki, on Artesian street asking for the improvement of streets were read. It was explained by the chair that the Kaimuki road would be improved promptly as the result of the contract with the Rapid Transit Company. Seeley Shaw addressed the board relative to the Kaimuki improvement.

A communication from the residents of Kakaako asking for relief in the matter of draining of that section and so forth was read. Lucas moved that the communication be referred to the Governor with the request that he communicate with the U. S. authorities and apprise them that their improvement work in that locality had choked up the drain sewer and request them to fix it. The motion passed.

Residents of the Koolauloa road district petitioned the board to appoint John Ah Sing road overseer for that district in event of Keanu the suspended overseer, being discharged. A communication received from A. S. Cleghorn relative to transferring some property on Fort street to the government for the widening of the street.

It was decided by the special Keanu committee to go to Koolauloa this morning and investigate the matter.

The ordinance governing the licensing of motor cars and requiring property owners to put curbing in front of their residences were read by title, first time.

The board adjourned until 7:30 p. m. Friday.

ALAMEDA BRINGS MAIL FRIDAY.

The S. S. Alameda will bring mail from the mainland on Friday morning. She is due from San Francisco.

ing to the Federal Government) is expended in their own development.

"Our people have endeavored to make good this drain on Hawaii's finances by asking Congress for liberal appropriations, such as for public buildings. These demands have been met by the reply that cities of a much larger population have been clamoring for years for a public building without success, and though Congressmen will admit the justice of our position from a financial point of view, yet they claim they can not vote for a public building in Hawaii until the wants of their own constituents are first met.

"In my study of the problem I have never found a satisfactory solution. I see no way of undoing that which has been accomplished by annexation. Our people do not care to ask to be relieved of burdens that every other American bears, but I have the following suggestion to make which, if it could be worked out would, to a considerable extent, furnish relief, and therefore have in my Annual Report made it the first recommendation as to needed legislation for Hawaii.

"That Congress pass an Act under which the Secretary of the Treasury shall cause to be set aside for a period of twenty years seventy-five per cent. of the internal revenues and customs receipts from Hawaii as a special fund to be expended in this Territory, as directed by Congress, for the following purposes:

"First. The erection of educational and public buildings.

"Second. Harbor improvements and military and naval defenses.

"We have a precedent in the Act approved June 17, 1902, relative to the reclamation of arid lands, where Congress created a special fund in the Treasury of all moneys received from the sale of lands in certain States for a specific purpose.

"If you can recommend in your Message legislation by which Hawaii will be placed on a footing more nearly to that of Porto Rico and the Philippines, with whom she must compete, and thus to some extent be relieved of contributing to the general support by applying the revenues taken from these small, distant islands toward their own development and defenses, it would be fine and come nearer a solution of the problem than anything else.

"The American people have ever been zealous to provide liberally for education. Hawaii can tax her people no higher, and her current revenues are insufficient, so that she is obliged to borrow the money with which to build her schools. If the people of the United States only knew how we are struggling to supply teachers and buildings for the natural increase of children, and the wretched structures we are obliged to use, they would, I am sure, willingly forego the money they are now taking out of the Territory and apply it to educational purposes alone.

"My suggestion goes further: We here in Hawaii are anxious that the defenses of these islands be strengthened so that they can by no chance ever be a source of weakness; and after a reasonable provision has been made for educational and other public buildings, no wiser expenditure could be made than applying the revenue taken out of the islands toward their own defenses.

"I only wish I had the ability to picture our conditions and make our needs known, for notwithstanding we are so small and insignificant, yet I feel certain these islands can be made a source of great pride and reflect much credit on our country.

"Very sincerely yours,
"G. R. CARTER,
"Governor."

STOMACH TROUBLE.

Is greatly relieved and in most cases cured with Dr. Miles' Nerve. It nourishes and strengthens the nervous system, which increases the activity of the stomach nerves, regulates the heart action, improves the circulation, and in giving health to the nervous system, removes organic disorder. Sold by druggists under a guarantee that if first bottle does not benefit, your money returned.

NOTICE TO HOLDERS OF BONDS

OF THE

Wailua Agricultural Company, Ltd.

Pursuant to a Resolution passed by the Directors of the Wailua Agricultural Company, Ltd., at a regularly called meeting held on October 24, 1905, and acting under authority of a Resolution passed by the Shareholders of the said Wailua Agricultural Company, Ltd., at a duly called special meeting held on October 19th, 1905, the existing issue of Bonds for One Million Dollars in all, will be refunded on March 31st, 1906.

Under authority of the said Resolutions a new issue of Bonds for One Million Five Hundred Thousand Dollars (\$1,500,000.00) in all will be made, said Bonds to be dated March 31st, 1906, bearing interest at the rate of 5 per cent. per annum, payable semi-annually on the last days of March and September of each year, for a term of 20 years, with the option reserved to the Wailua Agricultural Company, Ltd., of redeeming the whole or any part of said Bonds on March 31st, 1916, or on any interest paying date thereafter; said Bonds to be secured by Deed of Trust on the property of the Company, which shall provide for the annual payment to the Trustee of 10 per cent. of the net profits of the Company, to be invested as a sinking fund for the redemption of said Bonds.

Holders of the existing issue of Bonds may exchange their holdings for an equivalent face-value of the new issue, on the basis of 98 for the latter, (difference to be paid to bondholders either in U. S. Gold Coin or in additional Bonds at 88, or partly in Bonds and partly in U. S. Gold Coin, at Company's option) provided they execute an agreement to this effect, and deliver same, not later than January 6th, 1906, to the Hawaiian Trust Company, Limited. Blank forms of this agreement will be furnished on application, or may be had at the office of the Hawaiian Trust Company, Limited.
